Run off on light brown construction paper. Cut out. Glue owl to the "tree limb." Add "Owl miss..." leaf somewhere on the branch. Students write what they will miss on the inside of the owl's wings. Remind them of capitalization, end punctuation and proper spacing, to make sure that you cover those standards.

Run off on green construction paper.
Students cut out
and glue somewhere on their branch.
If you want to make this more personal,
make a copy of your class composite, and
have students glue their photo to the leaf.
