Owl clip art by Dixie Allan

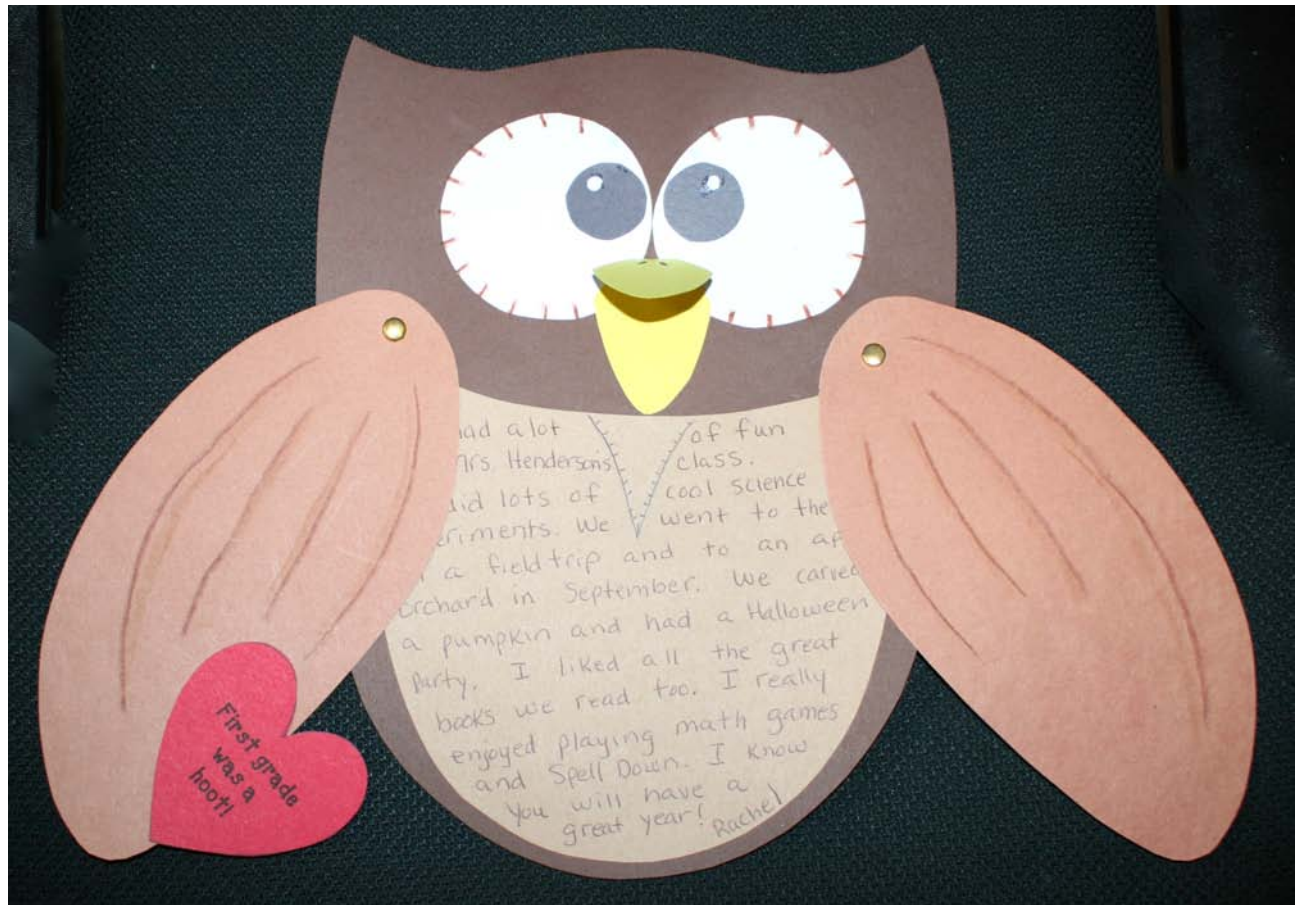

First grade
was a
hoot!

I had a lot of fun
Mrs. Henderson's class.
I did lots of cool science
experiments. We went to the
orchard in September. We carried
a pumpkin and had a Halloween
party. I liked all the great
books we read too. I really
enjoyed playing math games
and Spell Down. I know
you will have a
great year! Rachel

First grade
was a
hoot!

Run off templates on a variety of colors of construction paper.

Students choose and trim.

Print the facial pattern, trim and trace on an old file folder.

Trace once and cut 3 to 6 eye pieces out at a time.

If you want your beaks to be 3D, cut them on a fold, so they will flip open.

I added the white "life" dots in the eyes with correction fluid. It dries super fast.

Place and position wings, poke a hole with a protractor at the top and insert a brass brad so they "fly" open.

Choose your grade heart template and run off on a variety of colors of construction paper.

Students trim and glue just the left side of the heart to the left wing.

This year's students write why their current grade was a hoot.

This will be given to a new student next year. What a nice surprise to find on or in their desk.

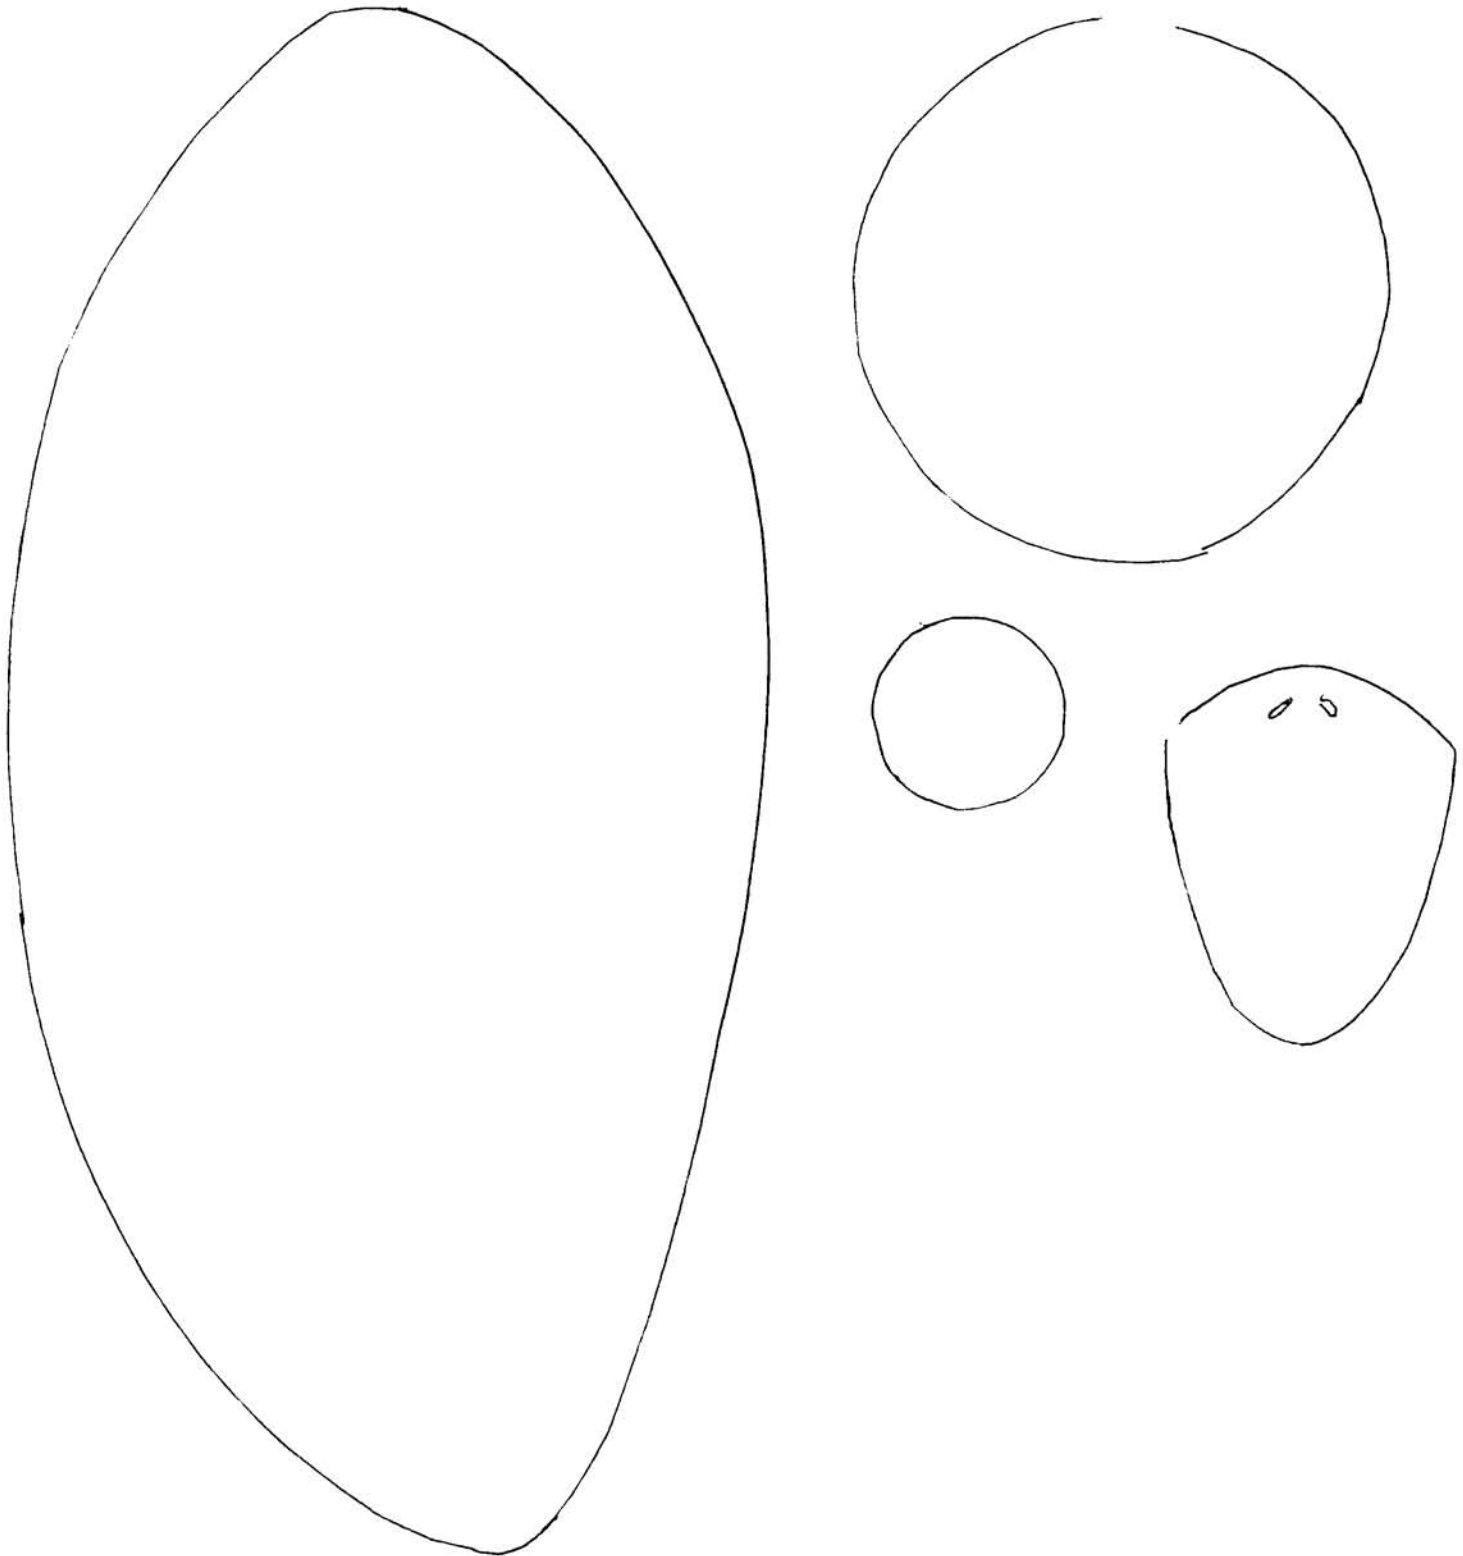

They could also be put up on a bulletin board.

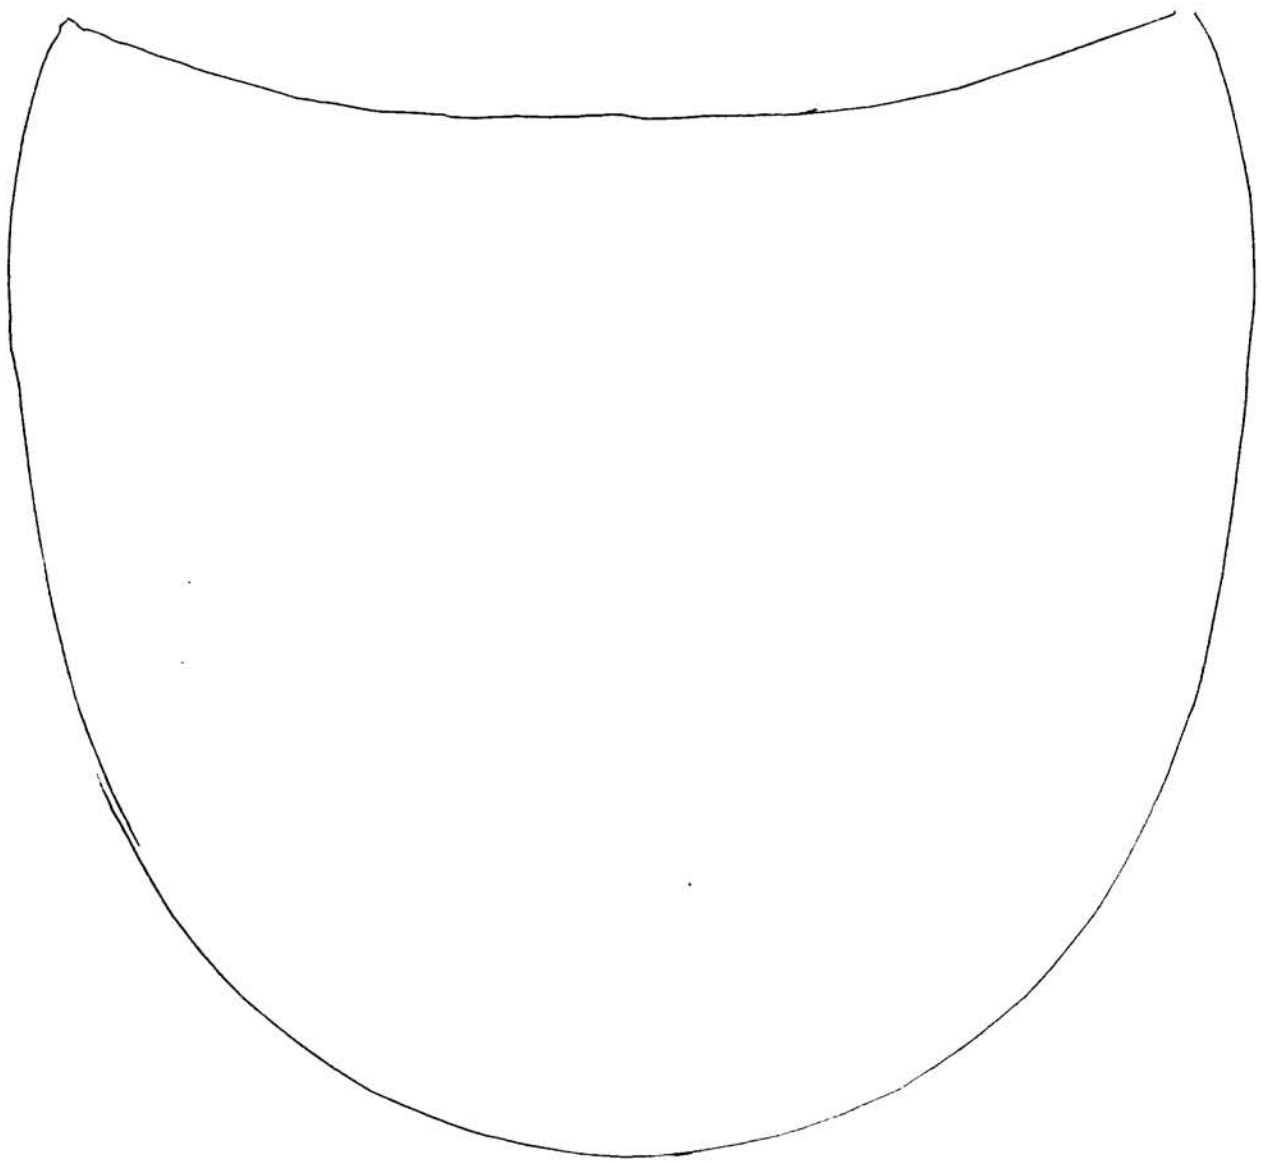

To make it even more personal, have students glue their school photo somewhere.

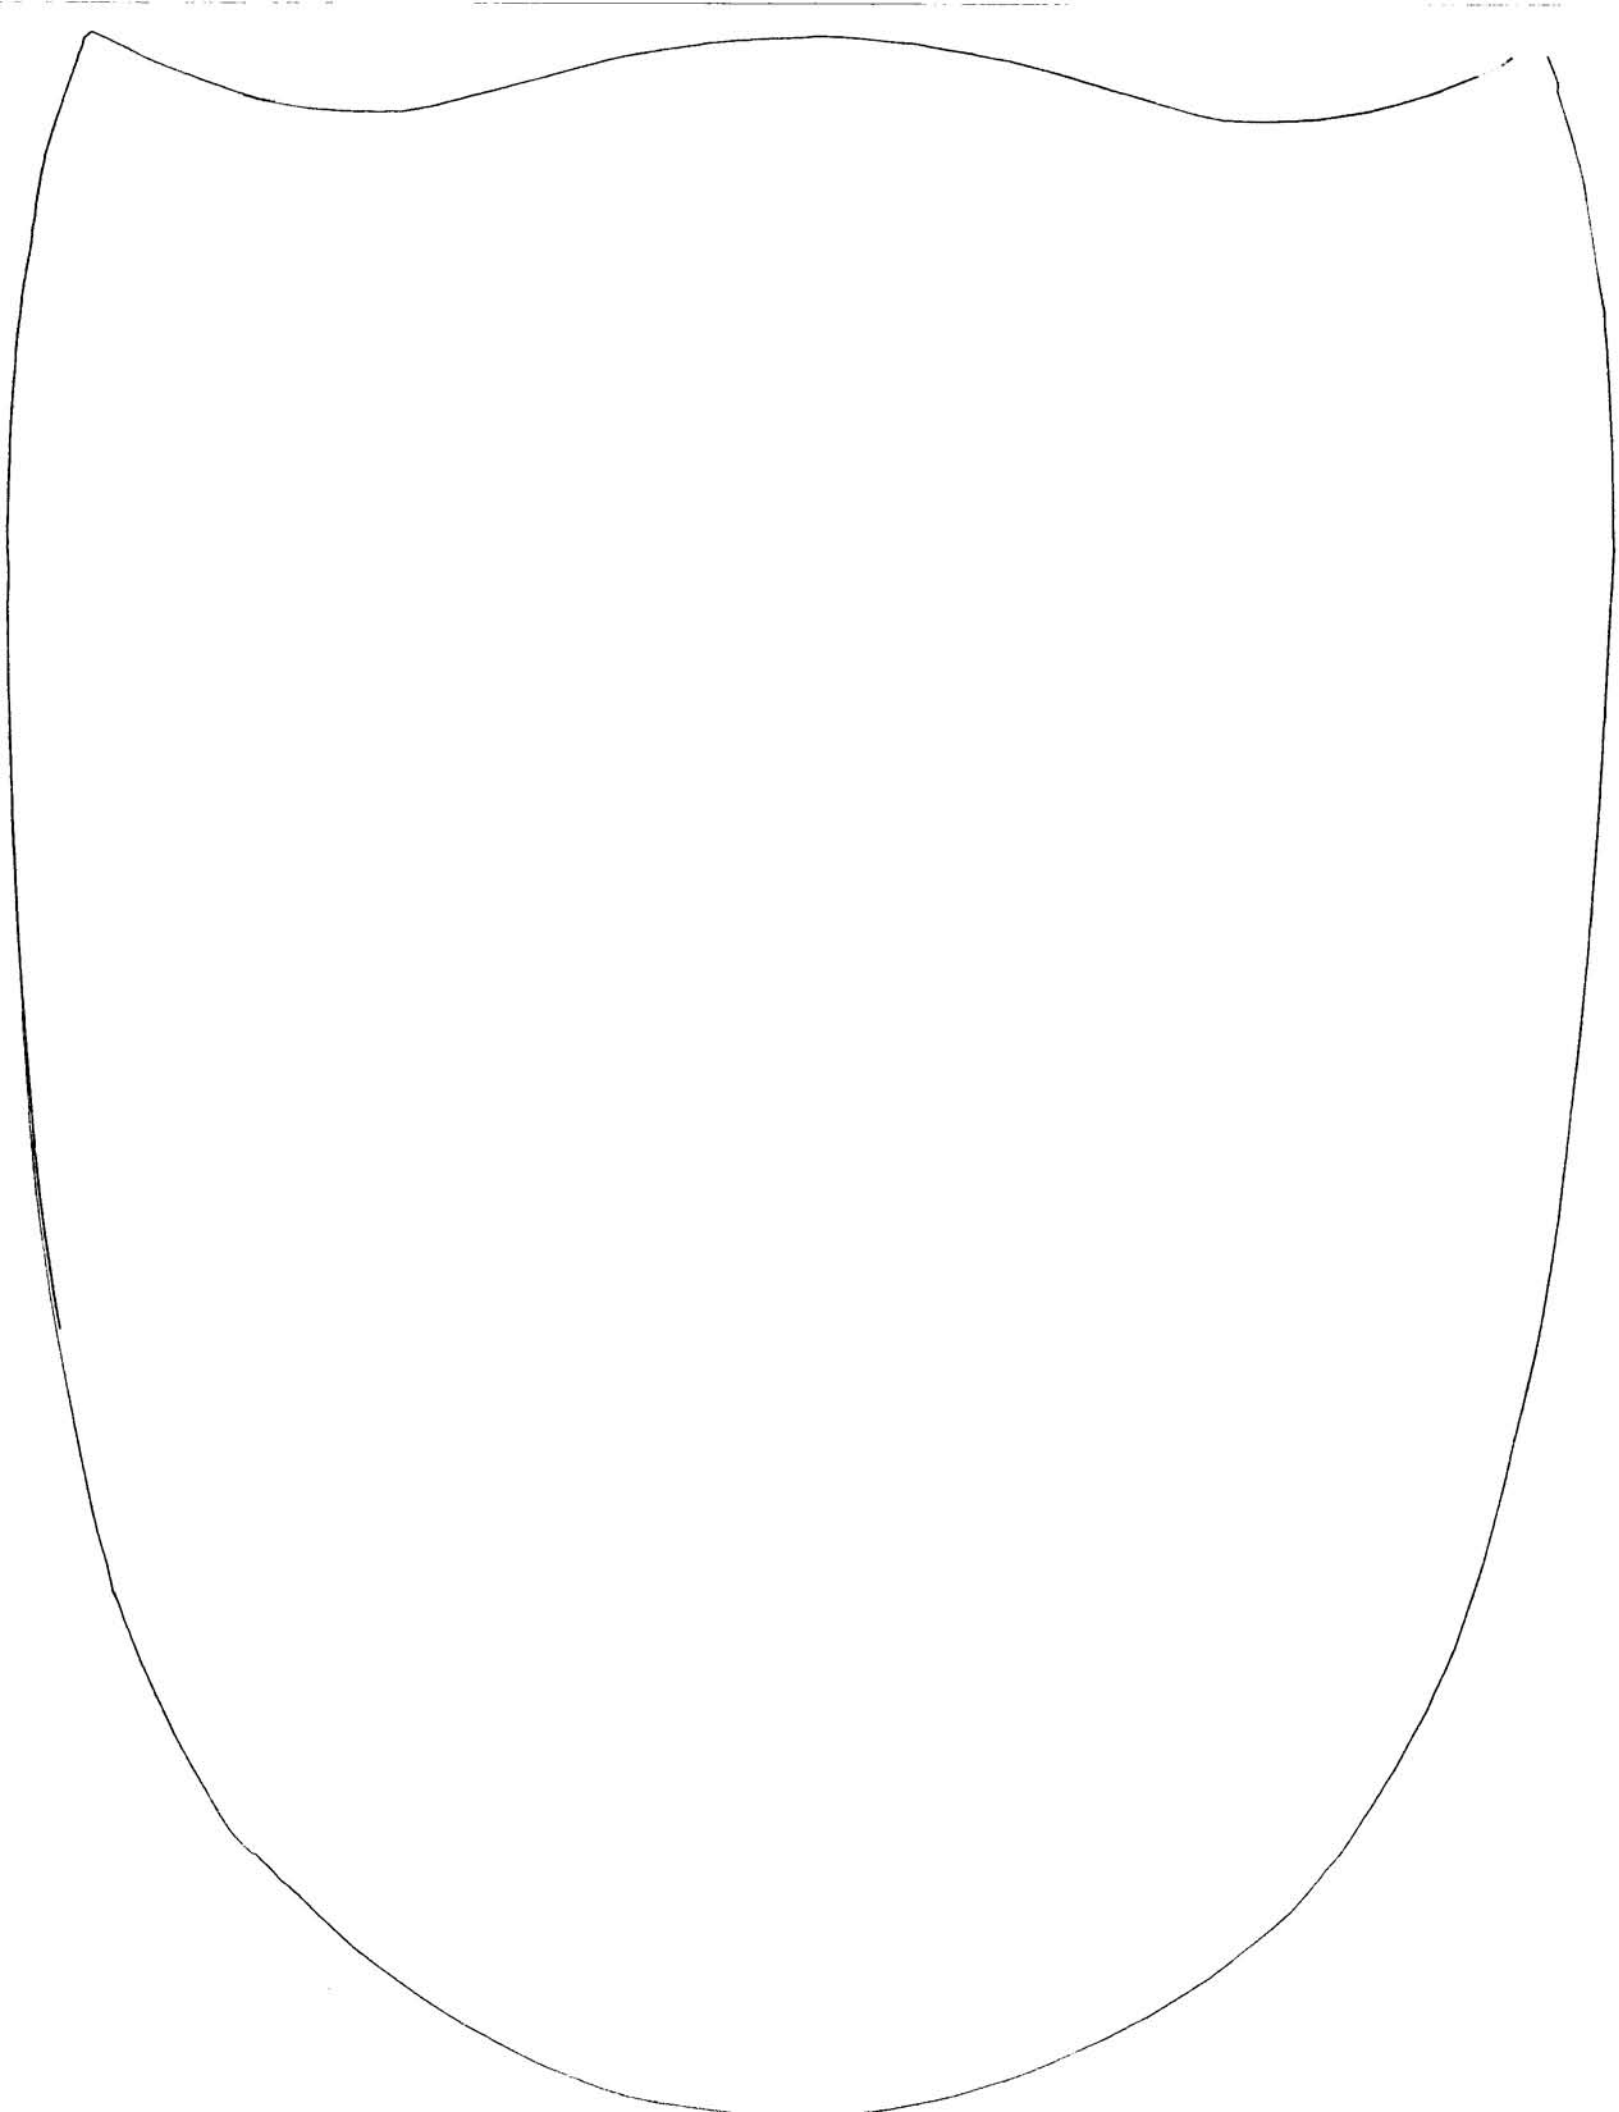

Owl templates for
“ ---(grade)----- was a hoot!” writing prompt craftivity.

cTeachWithMe.com

- Print, cut and trace the template on an old file folder. Trace once and then cut 3-6 at a time.
- The large circle is white. The small circle is black. The triangle beak is yellow.
- The body is brown (or do an assortment of colors and let students choose.)
- The small body is beige (or do an assortment of colors). Printed scrapbook paper would also look cool.
- The wings are the same color as the large body.
