Print, laminate and trim. Attach to the back or front of your dog dish.

Put your bones in the dish and read a few of your students' names each day.

To get the wiggles out, after we did this activity, I'd put the CD "*Who Let The Dogs Out?*" on, and my Y5's would scamper around like puppies singing and barking. They literally begged for this each day. (No pun intended.)

Run off on white construction paper, or a variety of colors and trim. Write your students' names on the bones.

Put them in a dog dish (the sell them at The Dollar Store). Each day hold up a bone. The child's name who is on it barks and then is given her bone to take home. You can read all of them in one day or just a few.

You could also keep the bones, and when everyone's has been read, scatter them on the floor and see who can find their name bone first. Another game you can play is "Doggie, doggie who took your bone?"
