A compound word is made when two words are joined to form a new word. Often the 2 separate words mean something entirely different than the new word, such as fire and works = fireworks!

These are some of the 42 compound word puzzle cards.

I purposely made them 3 different sizes so you can pick X amount and have students play a Memory Match or "I Have; Who Has?" game with the 3 cards in each set.

Students can also simply find the 3 matches to complete the "puzzle".

Can they think up more words using some of the root words? For example, there are a lot more for snow.

### Popular tongue twister:

How much wood, would a woodchuck chuck,  
if a woodchuck could chuck wood?  
A woodchuck would chuck,  
as much wood as a woodchuck could chuck,  
if a woodchuck could chuck wood.
