

My Monthly Senses Writing Prompts

My Monthly Senses Writing Prompts

©TeachWithMe.com

Directions:

1. Students write their name above the monthly sense title in possessive form. i.e., *Diane's September Senses*.
2. They put a title on the bottom such as *My apple*, *My candy corn*, etc.
3. Students color the "thing" of the month.
4. Teacher reviews what the 5 senses are.
5. Students examine the "thing" of the month using all of their senses. Looking at it with their eyes, smelling it with their nose, feeling it with their fingers, tasting it, and listening (with their ears) to the sounds it makes in their mouth or as they examine it.
6. Teacher brainstorms with the children and asks them to use describing words (adjectives) for each one of the senses.
7. Teacher writes them on the board.
8. Students copy the ones that they feel are appropriate for them on their papers.
9. You can leave the writing at this, or you can have them turn their paper over, choose a describing word from each category and write a complete sentence. i.e., *My apple looks shiny. My apple sounds crunchy when I take a bite and chew it. My apple smells spicy. My apple tastes sour. My apple feels smooth and hard.*
10. Collect students' papers and keep them in a folder. At the end of the year have students color a cover, bind their work so they have a nice keepsake booklet of their writing for the entire year. You should be able to see improvement as the months go by. This is a nice thing to show parents during conferences, and a great alternative to portfolios.
