## Phonemic Awareness Dictionary

- An important pre-reading skill is the ability to blend sounds orally to make words.
- Here is an alphabetical list of one-syllable words to practice this skill.
- Choose the ones you use, or want your students to learn. Put a few on the board for your students to make their own Phonemic Awareness Dictionaries on a daily/weekly basis.
- OR...use my list and choose the words you want the students to COLOR in and refer to.
- Have them say the beginning consonant, pause, and then say the rest of the word.
- Your students should be able to put the sounds together and repeat the word correctly.
- If you think of any other words that you think should be on this list, I would appreciate hearing from you and will add them.
- Thanks in advance.
