Color-Me Bookmarks

Background:

- These are great fill-in's for students who get done with all of their Table Top and Center work, and a nice "incentive" to stay on task and get your work done so that you too, get to make a cute bookmark.
- Teacher can color a few ahead of time as a reward for the 1st one or two that are done as well.
- Besides COLORING them, students can...
- STAMP a group or set of something on the **back**.
- They can WRITE their name.
- They can write MATH equations.
- They can write their SPELLING words.
- They can write their WORD-WALL or SIGHT words.
- They can collect their friends autograph so everyone gets to practice name writing.
- They can SNIP-fringe the bottom or around the edges to practice their CUTTING skills.
- They can write a NOTE to their family and leave it as a paper LOVE-U on someone's pillow, in the car, in a drawer or in some other silly place.
- They can copy a sentence from the board.
- Think of something on your own!
- Or...
- Just leave it "Just for fun!" as a bookmark to color.
