won the
**Time To Celebrate
game.**

Happy
100 Day!

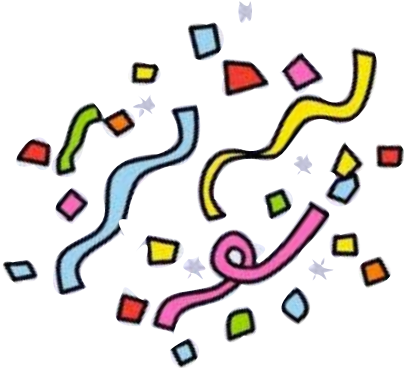

Time
To The Hour
Dice Game

It's time to celebrate!

- Students choose a partner or play in groups of 3 or 4.
- Children take turns rolling first one dice, to get the numbers 1-6, which represent times to the hour.
- Whatever number they roll is the digital time that they trace.
- They also write that number in the appropriate place on their analog clock.
- Once they have rolled numbers 1-6 they roll two dice and add the numbers together to get hours 7-12.
- The first one to complete their "Time To Celebrate" paper is the winner.
