Third grade was a hoot!

Favorites

Subject: reading and art

Food for lunch: tacos

Thing to do at recess: Swing on the swings.

Book: Judy Moody Detective

Activity: Science experiments

School celebration: Valentine's Day

Third grade was a hoot because my students laughed at my silly jokes, enjoyed my crazy costumes, and were quiet when I read to them.

Third grade was a hoot because of all the special things we learned; because people listened and helped others, and because of all our wonderful celebrations, like 100 Day and Dr. Seuss Week. Going to Meijer Gardens to see the butterflies was also something to hoot about.

Memories

My closest friends: Maria and Judy

Funniest moment: Pumpkin Bowling

Proudest moment: When students light bulbs go on.

Happiest moment: When everyone "gets it!"

Best thing about this year: A super group of students

3 words that describe this year: Awesome, fun interesting

Autographs

Teacher: Mrs. Henderson
Principal: Mr. Beaup
Librarian: Mrs. Carolle
Secretary: Miss Arenson
Classmates:

Karley   Annd
    Kirsten
Connor   Mea
  Andy   Kesha
       Beceah
Baily   Caleb

End of the Year School's A Hoot File Folder Craftivity

Templates for preschool - 3rd grade + a blank one

- I used 3 file folders to make this craftivity, but you could also use 2 large sheets of construction paper.
- Open 2 file folders up. Glue the right side of one to the left side of the other. You will now have a left flap, middle section and right flap.
- Use the pattern to trace the wings and then trim.
- I used a third file folder for the head, but you could also use a sheet of construction paper.
- Students can draw their own face, or you can use my pattern.
- You could also cut these pieces out of construction paper and have students glue them on.
- Choose your grade flag and run them off on a variety of colors of construction paper.
- Students trim and glue only the left portion of the pennant to the left wing.
- Add a school photo to make it extra special.
- Brainstorm with students about all of the things they did that year that were a hoot.
- You may want to jot these on the board to help with spelling.
- After students have written a rough draft, they rewrite their final thoughts on the templates.
- Students can draw a full-sized body in the oval, or just their face.
- Glue the autograph page on the back.
- Students can collect their own, or to expedite things, you can have everyone sign a master sheet and then run it off for everyone.
- Make a sample of your own to share with your students.
- I'm sure they'll enjoy hearing about their teacher's favorite things and why (s)he thought this year was a hoot.
- *"A picture is truly worth a 1,000 words"* and will help you explain what you want your kiddos to do.

Owl's left
wing.
